COLSA Corporation Announces Teaming with VT Milcom on Global C4ISR Contract

Huntsville, AL - COLSA is pleased to announce that they are part of the VT Milcom-led team that has been given one of four awards on the Global Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) contract by Space and Naval Warfare Systems Command, San Diego, CA. The contract value is \$843,303,609 with two option years that give the contract a potential cumulative value of \$1,386,039,973.

The Global C4ISR contract covers the installation and operational certification of C4ISR systems on surface ships, submarines, and shore stations around the world. Work will be aboard U.S. Navy platforms and completed by January 2014 (January 2016 if options are exercised). All four contractors will compete for task orders once they are released.
