COLSA Awarded SMDIS III Contract

COLSA Corporation has been awarded a Space and Missile Defense Initiatives Support III (SMDIS III) Scientific, Engineering, and Technical Assistance (SETA) Program contract by the U.S. Army Space and Missile Defense Command/Army Forces Strategic Command (USAMDC/ARSTRAT). This multiple award, indefinite delivery/indefinite quantity contract has a ceiling value of \$450 million. On the SMDIS III contract, COLSA and its sixteen partners will provide support services in Space, Missile Defense, Information Operations, C4ISR, Rapid Prototyping, Limited Procurement, Fielding, and related arenas. The award continues COLSA's long and successful support of USAMDC/ARSTRAT that began under SMDIS I.

"We were excited to learn of our successful SMDIS III award," said COLSA's President, Dr. Richard Amos. "COLSA has a long history of providing USAMDC/ARSTRAT with valuable support. We are pleased that they recognized COLSA's excellent record and dedication to the Command's mission. We look forward to continuing to build on our relationship with USAMDC/ARSTRAT and are committed to providing the exceptional service and customer-focus that COLSA has become known for."
